Welcome to a New Year at the Bay Area Chamber of Commerce, as your New Executive Director I am excited to work with a Board of Directors who share my vision for Small Business growth, while promoting a strong community who engages each other to solve problems and promote togetherness. I spent the bulk of my previous career working with businesses all over Coos County as their Account Executive in the telecommunications field. I can assure you good communication is key, as your new Executive Director I will work hard to ensure the Chamber can be all it can be for you and your businesses, and we have a strong Board of Directors and many active Chamber Teams who have a proven track record of good communication and working together to ensure the best possible community for all.

My family and I moved here about 25 years ago, I saw the spirit in these communities in different events and community gatherings and facing problems head on together. This small but mighty attitude is what kept me here year after year, The people in Coos Bay, North Bend and Charleston are resilient people who love this community and band together

to make a difference. The Chamber helps them do that every day, through networking events, supporting each other's businesses and working on legislation that matters to business or our beautiful area. The incredible coastal area we live in was such an incredible sight for this girl from the desert that had never seen the ocean. I swore I would never leave, and when presented with opportunities to leave I turned them down. So, because I love this area so much, and I'm confident if you spend any time here at all, you will want to live here too. Let's make a difference here together to strengthen our area and grow our local economy for our residents and business owners.

# LIVING IN Oregon's Bay Area

## Our Business is Helping YOUR Business!

The origin of the name “Coos” is open to discussion. In the Hanis Coos Indian language, it meant “south,” or “southerner.” The Hanis and the Miluk Coos people lived from time immemorial along the sloughs and streams, the bayshore, and the ocean beaches of what has been known since about 1850 as Coos Bay. They were the southernmost people known to the Chinook Indians at the mouth of the Columbia River who met with Lewis and Clark in 1805.

Sir Francis Drake is said to have found shelter for the Golden Hinde in the south cove of Cape Arago in 1579, but it was not until 1826 that Europeans actually set foot on the shores of Coos Bay. A brigade of the Hudson’s Bay Company trapped and traded for beaver furs during that winter, and Jedediah Smith with his fur company passed through Coos Bay on their way north during the summer of 1828.

Population growth came slowly, but was stimulated by extractive industries beginning with gold discoveries south of Coos Bay in 1853. Coal underlying the Coos Bay area was mined and shipped to San Francisco from 1856 until well into the twentieth century. The first two sawmills on the bay – the Henry Luse mill at Empire and the Simpson mill and shipyard at North Bend – began operations in 1856. Wood products were the mainstay of the economy and the greatest spur to growth during the twentieth century, especially after 1908 when the C.A. Smith Lumber Company opened the “largest sawmill in the world” at Bunker Hill. The economy also benefitted from specialty agricultural products such as apples, cheese, and cranberries. Maritime industries that grew included commercial fishing and oyster farming. Most recently the economy has become increasingly dependent upon the service trades – particularly government, medical, and education.

Coos County has a marine climate, mild and humid, a result of the moderating influences of the Pacific Ocean and from the rainfall induced by the coast range.

# NORTH BEND

The city of North Bend was originally named Yarrow, possibly after the flowering plant, a river in Scotland or a vessel. The name reflects its geographic location at the north bend of the Coos Bay channel. Timber baron Asa M. Simpson and his son, Louis, were major players in the town's early development. With North Bend at the center of their vast timber holdings, the Simpsons built a number of large sawmills and shipyards. Another prominent figure was Vern Gorst, a member of aviation's Hall of Fame, whose land, water and air service provided the embryo of United Airlines. He was a major figure in the town's transportation improvement and expansion. Today, North Bend is home to 10,375 people and enjoys a diversified economy including a U.S. Coast Guard air station, Pony Village Mall (the largest enclosed shopping mall on the Oregon coast), dozens of restaurants plus antique stores and other unique shops throughout its downtown area. With historic and picturesque McCullough Bridge serving as the Bay Area's northern gateway on Highway 101, the city also welcomes travelers at the Southwest Oregon Regional Airport. The airport provides the region's commercial passenger and freight service, as well as general aviation facilities.

# COOS BAY

Now the largest incorporated city in Coos County, Coos Bay was established in the 1850s as Marshfield, named for the Massachusetts birthplace of founder, J. C. Tolman. The town was incorporated in 1874, but in 1944 its name was changed to Coos Bay by a vote of the residents. Years later, the cities of Empire and Eastside merged with Coos Bay, and today all exist as one city. With a current population of 16,005, Coos Bay continues to be the commercial center of Oregon's south coast, with growing retail, service and professional economic sectors.

The downtown area is a popular stopping place for travelers using U.S. 101, the coast highway, which passes right through it. Visitors and residents alike enjoy strolling on the Coos Bay Boardwalk. They find treasures in our locally owned shops and restaurants.

# CHARLESTON

Located where the ocean meets Coos Bay, the unincorporated community of Charleston is the area's commercial and sport fishing center, providing seafood processing and support services. The Charleston Marina Complex, operated by the Oregon International Port of Coos Bay, provides moorage for commercial and pleasure boats and can accommodate more than 550 vessels. Charleston is home to the Oregon Institute of Marine Biology and Charleston Marine Life Center and the U.S. Coast Guard Lifeboat Station. It is also the gateway to major recreation areas at Sunset Bay, Shore Acres and Cape Arago State Parks, Bastendorff Beach County Park and the South Slough National Estuarine Research Reserve Interpretive Center.

# Attr. Culture and Entertainment

The **EGYPTIAN THEATRE**, home of the only originally installed Wurlitzer pipe organ left in Oregon, was restored to its former beauty by the City of Coos Bay and the Egyptian Theatre Preservation Association. In 2017, the Egyptian began showing feature films in stunning 4K ultra high definition. It is a unique, truly vibrant entertainment complex operated for the benefit of the greater Coos Bay area.

The **COOS ART MUSEUM** has been a cultural focal point of Oregon's scenic Southern Coast since 1966 and features changing exhibits, a substantial Permanent Collection and art education work shops. Featuring a Steve Prefontaine memorabilia exhibit as well as local student art displays.

Cruise into the past at the **COOS HISTORY MUSEUM, OREGON** Coast Historical Railway Museum and Marshfield Sun Printing Museum in Coos Bay, the Bandon Historical Society, and Coos County Logging Museum in Myrtle Point.

A well-established community theatre, North Bend's **LITTLE THEATRE ON THE BAY** in the Liberty Theatre, presents shows year-round including annual events like Lil Ole Opry, Haunted Theatre, Country Christmas and this year's show lineup including a musical.

Located on the edge of the Charleston Harbor, the University of Oregon's **CHARLESTON MARINE LIFE CENTER** is an exciting place of discovery for all ages. The CMLC's aquaria, interactive displays, and views reveal the remarkable diversity of life off Oregon, from the coast to the deep sea.

**OREGON COAST HISTORICAL RAILWAY** in Coos Bay, Oregon, working to preserve an important part of the region's history by providing a place to restore and display vintage railroad and logging equipment.

Through the Bay Area Chamber of Commerce, I learn about my community, economic development, legislative priorities, and so much more. The chamber advocates by being that larger voice in those arenas as well, and it helps me to connect with citizens, other agencies, and business leaders through casual, more formal social, and educational opportunities.*

# Oregon's Bay Area

## FORESTRY & WOOD PRODUCTS

Coos County's 750,000 acres of forestland, owned by industry, families, and public entities, supply a highly diversified wood products industry. Soft and hardwood species are purchased by more than a dozen mills, exporters, and secondary processors operating in the county. Wood processors produce commodities (such as dimensional lumber and plywood) as well as specialty products (such as furniture-grade hardwood lumber, treated wood, and arrow shafts).

A steep reduction of the federal timber harvest in the early 1990s reduced the size of Coos County's forest industry. Today, the bulk of the county's timber production comes from sustainably managed private forests. Stability of current timber harvest levels, when coupled with the highly diversified suite of wood products manufacturers, ensures that forest products will continue to remain a vital industry in Coos County.

Why do we feel that investing in the community is so important?

Because of the sizable returns.

We believe that if we put the time in to help our neighbors—through philanthropy, volunteering, or just plain sweat—the rewards are tenfold. Together with numerous charitable organizations, we're working to make this the kind of place we can call home. And that's the biggest return of all.

NW Natural is proud to support the Bay Area Chamber of Commerce

*The Chamber is about community. Somedays I get to help you. Some days you get to help me. Some days we both get to help the business down the street. But this doesn't happen unless we get to know the folks down the street. I urge you all to become involved with those around you. It takes a village to raise a village.*
